## 2 Announcing Candidacy for State Senate

John H. Carter

John H. Carter is announcing that he will be a candidate for the Republican nomination as a candidate for the State Senate in the primary election. He has served this district in the House of Representatives the last two terms, and three years as a Selectman of Bethel.

After graduating from Gould Academy in 1906, Mr. Carter was in the employ of the Brown Company 40 years. For 38 years he was woods manager of pulpwood operations in Canada. Since retirement to his home here in 1946, besides making an excellent record in his duties as a town official he has been in much demand as a land surveyor.

He is an active member and worker in the Congregational Church, Lions Club, and Chamber of Commerce.

Carleton S. Fuller

Carleton S. Fuller of Buckfield has announced his candidacy for the Republican nomination for one of the State Senate seats from Oxford County in the June primary election. He served his district in the House of Representatives in 1917 and 1919 and as State Senator in the 1951 legislature.

Graduated from Leavitt Institute in 1911 and Bates College in 1915, Mr. Fuller was engaged for 28 years in school work. Twenty-six years were spent as principal of high schools in Buckfield, South Paris, Fort Fairfield, and Bar Harbor. Since 1915 he has been an orchardist in Buckfield.

Funeral services will be held Saturday at 2 p. m. from the Greenleaf Funeral Home.

### FIREMEN MEET AT LOCKE MILLS MONDAY NIGHT

A delicious supper put on by the Auxiliary preceded the meeting of the Western Maine Firemen's Association in the town hall at Locke Mills, Monday evening.

President Bob Blake of Bethel, called the meeting to order at 8:15 with the reading of the record of the previous meeting by Secretary Charles Freeman. Roll call showed 14 towns represented as follows: Bethel 11; Bridgton 2; Bryant Pond 6; Buckfield 1; Fryeburg 4; Harrison 7; Hiram 2; Locke Mills 16; Norway 2; South Paris 4; Augusta 1; Houston (Texas) 1; West Paris 3; Waterville 1. Total 72.

It was voted last month in Hiram to write a letter to Casco suggesting that that town not disband their fire department. Asst. Chief Denison of Harrison read the letter which was written.

It was voted to hold the May meeting in Bryant Pond.

Austin H. Wilkins, Deputy Forest Commissioner, told of the "forest fire compact," a mutual aid agreement between the New England States and parts of Canada. He also explained the historical forest fires which Maine has experienced since 1761. Another interesting topic of his speech was the explanation of the woods ban and how it may be enforced by the Governor at any time it is deemed necessary.

Movies on log driving were shown for the first time to the group.

The next meeting will be held at the new Conway fire station on Monday, March 17.

### MOST HIGHWAYS PASSABLE IN SPITE OF WINDS, SNOW

Although other Maine communities received much greater snowfall, the arrival of about seven inches here Monday followed by high winds was enough to block many roads in the vicinity and cause a train wreck. Schools were closed Wednesday as roads filled faster than plows could make their rounds and near zero cold made the work no easier.

### IT SNOWED

A day or two ago it snowed, and then it snowed some more. But most of us around these parts had seen the stuff before.

Some years we have two, three, four feet; Other years it's more or less, But come what may as the years roll 'round We're bound to get a mess.

"Before my time," I understand, The storms were really whoppers. But the one we had on Tuesday last Proved to be a freight train stopper.

Yes, without doubt, the olden winters Were something to behold And I'll bet the kids in '99 The same tall tales were told.

### JANUARY UNEMPLOYMENT UP—NEED DRIVERS, WOODSMEN

Unemployment increased about 26 percent in the Rumford area during January according to an operational analysis released by Manager Ernest F. Lever, Jr., of the Maine Employment Security office at 244 Waldo Street, Bethel, in the area served by the Rumford MESC office.

The area includes much of Franklin county and the northern half of Oxford.

At the close of January business Lever said 291 unemployed, or partially unemployed, workers were seeking jobs through facilities of his office, an increase of 77 over the 214 seeking work as the year began. At one time during January, with two area woodworking mills down, the active file climbed to 425. A shortage of qualified woodsmen, for long lumber operations, continues. Truck drivers and truck driver-owners, are also in demand.

The woodworking industry, according to Lever, fluctuated last month, but at the close of January business had become stabilized, was operating at "nearly normal production level."

Job placements—114 for January—increased 86 percent over December placements, Lever said. Placements included 68 women and eight veterans.

The Rumford MESC office received orders for 96 workers last month. At the close of the month's business 835 openings, largely in the logging industry, were unfilled.

Employment prospects for the next few months appear "a little brighter than was true in the three previous months," Lever said.

"Providing the weather is such that wood can be hauled to wood working plants, this industry should operate at top production for the next few months."

"It is expected that a labor shortage will develop in early spring as we have a large number of road jobs scheduled to begin at that time."

### 16TH BIRTHDAY CELEBRATED

Dennis Grenier, son of Mr. and Mrs. Patrick Grenier, was honored guest at a party celebrating his 16th birthday from 5 to 7 o'clock Sunday afternoon. Those present were Kent Taylor, Charles Eppner, Richard Harbour, James Bartlett, David Myers, Jerry Freeman, Peter Anderson, and Dennis Grenier.

### BERLIN DEFEATS GOULD, 57-32

After playing a good first half, hitting Berlin to a 25-23 score, the Gould basketball team fell apart and were beaten 57-32. Captain Henri Agnese was greatly missed. His knee injury will keep him out of the final game of the season against Gorham, also. Johnson was the leading scorer for the Huskies with nine points. Paul Sullivan and Hagen led the winners with 13 and 10 points respectively.

The Gould JV's behind 10-7 at the half put up a game fight as they brought the score to 36-24 in the last period only to have Berlin rally and finally win 43-24. Fossett and Butler, with 11 and 9 points, led the underdogs while Berlin's Twitchell scored 16.

The Gould teams will make their final appearance of the season Friday at Gorham where the varsity will meet the still undefeated Gorham club. The Huskies will be at low strength with Captain Agnese out and also minus the services of Biden, who has quit the squad. This will necessitate the bringing up of Fossett and White from the JV's and thus weakening that team also.

## Snow Causes Freight Train Rear Collision

The caboose and one freight car of an east bound freight train were burned Tuesday morning following a rear end collision about three miles west of West Bethel. The fire occurred after the Portland-bound way freight crashed the caboose of the first train which was stopped by the drifted snow. No one was injured. The Bethel fire pumper and auxiliary booster tank truck were called to fight the blaze.

By 4:00 a. m. Wednesday the tracks were cleared by the Island Pond wrecking crew. Meanwhile passengers on the passenger train No. 17, west bound, were transferred by taxi to Gorham where the cars of No. 18 returned toward Montreal. No. 16's eastbound passengers came to Bethel by bus and continued by rail to Portland, leaving Bethel about 8:40 Tuesday evening.

The caboose, crumpled by the collision, was consumed by the fire before it could be uncoupled from the train. The next car, laden with flour, although its fire was controlled by the firemen was again ablaze when removed to the Glend siding early Wednesday. The crew had vacated the caboose before the crash.

The accident occurred in a section where many collisions and derailments have been in the past. The last was on July 8, 1943, when nine cars loaded with wheat left the rails after a brake beam broke. In a head on collision east of the Tuesday crash on the night of Dec. 24, 1916, four men were killed and 24 cars were derailed.

## Above the HULLABLOO

THE WITCH HUNTS started by Senator Joseph R. McCarthy of Wisconsin a couple of years ago seem to have turned up quite a number of "witches."

It only takes one "witch" to cause catastrophe. Dr. Klaus Fuchs is an illustration. He gave Russia the atom bomb secret. The "expert" advice and the writings of two or three other "witches" are believed by many to have resulted in the loss of China to Russia. Had McCarthy broken into the "China-shop" just a few years earlier we might still have China on our side and perhaps still retain the bomb secret. It required the demolition of the entire "shop" to wake up the American people.

But McCarthy took his political life in his hands when he made his attack; and now he is facing a senatorial investigation to determine if grounds exist to seek to expel him from the senate. The investigating Committee was composed of three Democrats and two Republicans. These two latter were Senator Margaret Chase Smith of Maine, the author in 1950 of a "Declaration of Conscience" against Senator McCarthy, and Senator R. C. Hendrickson of New Jersey a co-signer of the "Declaration." Senator Smith resigned from this tribunal but offered to serve as a judge nevertheless. Hendrickson decided to remain on the committee.

This column does not mean to cast aspersions upon the honesty of any member of this tribunal, but all people are human—even Senators. Would it have been possible for three Democrats and two anti-McCarthy Republicans to judge the "case against McCarthy" impartially? Will it be possible for three Democrats, one anti-McCarthy Republican and one normal Republican to do likewise?

Let us imagine if possible a similar case in any law court in this country. Can you conceive of a juror or a judge who has made an opinion highly critical of the actions of the accused being allowed to serve in a case based upon those very actions? Is this sort of procedure what we Americans regard as fair and aboveboard?

THE BEST MAN was Edward L. Furgerson of Harvard Medical School, Boston.

The bride was given in marriage by her father, Lorenzo Cole Sherman Cole, brother of the bride, was usher and Miss Mary Jane Cole, sister of the bride played Mendelssohn's Wedding March and "I Love You Truly" and "Because."

The bride is the daughter of Mr. and Mrs. Lorenzo Cole. She is a graduate of West Paris High School in the class of 1948 and the New England Deaconess School of Nursing in 1951 and is employed on the staff of Deaconess Hospital, Boston.

The groom is the son of Mrs. Fair Durdan of Twin City, Ga. He is a graduate of Emanuel County Institute, Ga., and the University of South Carolina and is serving with the U. S. Navy aboard the U. S. S. Columbus, Charlestown, Mass.

The couple have a furnished apartment awaiting them at 348 Beacon St., Boston.

The groom's gift to the bride was a wrist watch and the bride's gift to the groom was a cuff link set.

Nice and quiet and law abiding citizens, I am going to the mat with you today—so lend an ear—and don't get mad, yet, if I select you as a careless or neglectful culprit. To be law-abiding and quiet

is a grand trait—it demonstrates that you are real people. But with the raucous and uncouth and unscrupulous plunderers that are afoot in the land, it is time to become vocal—to unlimber the shoot-in' irons—to take part in the fray—to mix it with the gentry who are going through your billfold, as the country nears the Falls, like the Roman Empire before us.

Now, nice people, you know precisely and exactly what ails us—you know that a full fledged European-type free spending Socialist Govt. hovers over our Nation, made up in welfare regalia and promising security right up and into the undertaker's front door. You savvy all this—100 per cent. But what you do, you never take your pen in hand and write your senator. Most senators are pretty good at reading—even between the lines.

Miss Irene Millett was taken to the CMG Hospital where she underwent surgery Sunday afternoon. Miss Rosalie Buck of Boston spent the week end with her mother, Mrs. Bertha Buck, and grandmother, Mrs. Winnie Ridlon.

Miss Mary Tamminen underwent surgery at the St. Mary's Hospital, Lewiston, last week.

Edwin Phillips of New York City returned home Thursday after visiting at the home of Mr. and Mrs. Harlan Childs.

Mrs. Ernest Gammon was taken to the CMG Hospital, Lewiston, on Monday night.

And now, sisters and brothers, nice people, it is time to start shootin'—and especially with November in the near offing—and don't blame me if you wake up some A. M. and find a Bureau Boy ensconced on your very own doorstep, and telling you where to get off.

Yours with the low down  
JO SERRA

... wherever women get together, the new motion picture, "Breast Self-Examination" is news! ... at neighborhood and civic centers ... in factories and business offices ... at social, fraternal and service group meetings, we are showing this film to countless thousands of American women.

Since 50-90% of those who have breast cancer could be cured, we are dedicated to showing every woman in this land what she herself can do to protect herself against death from this disease.

If you don't know where you can see this film, telephone the American Cancer Society office nearest you, or address your letter to "Cancer" in care of your local Post Office. An A.C.S. educational program may save the lives of many of your neighbors, friends, co-workers or friends.

## MAJOR RICCI GETS THIRD

## OAK LEAF CLUSTER

Major Alfred P. Ricci, 33 whose wife, the former Winona Chapin of Bethel, lives at 109 Colonial Road, Portland, has been awarded the third oak leaf cluster to the Bronze Star Medal for heroism against the enemy in Korea.

The Portland major, who recently arrived in the Far East, has been assigned to the Korean Military Advisory Group as a regimental advisor.

It was in that capacity that he displayed heroism by refusing to abandon an enemy-surrounded position, but instead stayed on despite dangerous odds and helped repulse of Korea forces to recapture and recapture lost ground.

Major Ricci was an army instructor for Massachusetts National Guard troops prior to going overseas. He is a veteran of World War I and served in Europe. He also wears the silver star medal.

**PARENTS WARNED THAT YOUNG DRIVERS LEARN BY EXAMPLE**  
Many parents in Maine are about to experience an uneasy sensation. For the first time, they will have to let the car keys to a teenage son or daughter.

If you haven't taught safety by example for years before," observed Ed Francis J. McCabe, Chief, Maine State Police, "a verbal admonition now probably won't be very effective."

"Your children start learning to drive when they start riding with you. Their first safety lessons are learned by their observation of your attitude. As you drive so will they. But that you always obey traffic laws," cautioned Chief McCabe, "and make it your business to know and understand these laws so that you can explain them when the youngsters ask questions."

**NO ONE AT FAULT BUT DRIVER WHEN HE SPEEDS—AND DRIVES RECKLESSLY**  
Fifty-seven of Maine's 142 motor vehicle deaths in 1951 were caused by excessive speed or reckless driving," the Maine State Police tell us.

"Speeding and reckless driving is always the driver's fault," stated Lieutenant John deWinter, Director Division of Traffic and Safety. "It is the duty of every driver to evaluate road, weather and traffic conditions and to gear his speed and manner of driving to fit those conditions."

"There is no excuse for reckless driving or excessive speed," continued the lieutenant. "No one has the legal or the moral right to risk his own life and property or the life and property of others by indulging in such driving practices. If you want to live—and let live—drive cautiously—and GLADLY OBEY."

## Business Unlimited

SOME four thousand years ago a man named Abram was faced with a serious business problem. He was a cattle raiser, and there was not enough grazing land to support his flocks and herds and those of his competitor, Lot. And, just as today business problems are seldom simple, Abram's was complicated by strife between his employees and those of Lot.

This strife was more than competitive friction between two rival business organizations. It reflected the conflict between the standpoint of Abram and Lot. Lot trusted matter; Abram trusted God, Spirit. Lot depended on material belief; Abram sought his solution through spiritual understanding.

Abram's first step was to make the following generous offer to Lot: "Separate thyself, I pray thee, from me: if thou wilt take the right hand, then I will go to the right; or if thou depart to the right hand, then I will go to the left" (Genesis 13:9). And Lot, selecting the land that appeared best to his material sense, chose the well-watered plains of Jordan and departed.

Beside eliminating the atmosphere of rivalry and antagonism, this step accomplished the removal of a wholly material sense of business. No solution to the problem of limitation could have been found as long as the spiritual and material viewpoints were associated. But when the separation had been made, Abram heard God's voice: "Lift up now thine eyes, and look from the place where thou art northward, and southward, and eastward, and westward: for all the land which thou seest, to thee will I give it" (Genesis 13:14, 15).

Abram must have lifted up his consciousness to Spirit, must have seen—that is, understood—the spiritual and unlimited nature of all that is good and necessary, for Abram, whose name was later changed to Abraham, was a successful and prosperous man.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, writes in "Science and Health with Key to the Scriptures" (p. 544), "All is under the control of the one Mind, even God." Mind, all-knowing and unerring, is the exclusive creator of every right idea. Mind furnishes the vision essential to successful business, initiating and governing all true activity. Mind knows no imbalance between demand and supply, and the understanding of this provides business with vigor and continuity.

Why should the businessman be willing to give up reliance on matter in order to solve the problem of limitation? Because matter itself is finite, limited, insubstantial. Consequently, every attempt to find in matter a solution to the problem of shortage and insufficiency is doomed to failure.

How does the businessman overcome limitation in God's way? By lifting up his thought to comprehend the infinitude and availability of all that God gives to man. As divine Mind, God supplies right ideas in a never-ending stream. As immortal Soul, God furnishes unrestricted discernment and foresight. As divine Principle, God operates as the ceaseless, resistless law of harmony and perfection. As eternal Life, God unfolds endless vitality and measureless progress. As infinite Love, God provides unbounded inspiration. His inexhaustible realm of good is open to man.

Relying on God, the businessman hears His eternal direction and promise, "Arise, walk through the land in the length of it and in the breadth of it; for I will give it unto thee" (Genesis 13:17). Walking in the length and breadth of spiritual understanding, the businessman loses sight of the limitations of a purely commercial sense of business, becomes aware of new opportunities, fresh ideas, original thinking, and direct procedures, and discovers that his business is indeed unlimited.—The Christian Science Monitor.

Golden Text: "My soul shall be joyful in the Lord: it shall rejoice in his salvation." (Psalm 25:9.)

REV. ROBERT H. HARPER  
The Decision of Two Rich Men  
Lesson for February 17: Luke 18: Golden Text: Matthew 7: 13-14 18-23; 19: 1-10

THE PRESENT LESSON contrasts two rich men and reveals the difference between them. One was the rich young ruler who asked how to inherit eternal life; the other was the publican who climbed into a sycamore tree to see Jesus.

As the young ruler had doubtless inherited his riches, he seemed to feel that eternal life should be due him because of his keeping the Ten Commandments. But the sequel shows that he had not truly kept the commandments. He was not willing to give up his wealth for Jesus and to share with the poor.

Zacchaeus, the rich publican, was a small man in more ways than in stature. The day he saw Jesus he was "up a tree" literally and figuratively. He was so poor in reputation that his people despised him as a renegade Jew. He had become a tax-collector under the Romans and had used the opportunity to extort heavy amounts from the people. As he had probably bought the privilege of collecting taxes over a wide area, with no limitation set upon the amounts that he would collect, he had ample opportunity to collect large sums above the amount he had to pay to the Roman government. So he was rich, but he was not satisfied.

The young ruler allowed money to use him; Zacchaeus, upon coming to know Jesus, learned to use money by restoring ill-gotten gains and by sharing with the poor.

## TODAY'S meditation

Chesupper Room  
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Thursday, February 14:

Be ye kind one to another, tender-hearted, forgiving one another, even as God for Christ's sake hath forgiven you (Ephesians 4:32) Read Ephesians 4:25-32.

ONE of my Chinese students told me a story. It happened during World War II. His family fled from their home before the invading army. They could carry almost nothing. They planned to buy food along the way. But, alas, the villages had all been deserted! Three days passed during which the family had nothing to eat.

Late the third day, they saw a wonderful sight. A kind-faced woman standing in a doorway smiled at them. They asked if they might buy some food. She invited them to rest while she prepared a hot meal. After they had eaten, they offered her money, but she would not accept it. She said, "I have two sons out somewhere in the army. I hope that someone will help them if they are ever in need."

The student concluded his story by adding, "Whenever I think of the kindness of that woman, I cannot refrain a soft pain in my heart."

Probably one of God's greatest gifts to us is the opportunity to be kind to others.

Prayer

We thank Thee, Father, for the gift of kindness. Teach us the value of kindness as we seek day by day to serve Thee by serving our brothers near and far. May we use kindness in Thy name. For Jesus' sake. Amen.

W. D. DINNERS don't seem quite simple, or when you want to make one of your family dinners into a more festive occasion, add a delicious first course.

Freeze ginger ale to a mush in the automatic refrigerator and place a scrap in a sherbet glass. Top this with well chilled, drained fruit cocktail and serve with meat sauce, cherry or a sprig of mint. Hollow out some orange shells if you want a novel fruit cup. There can be filled with a mixture of diced oranges, sliced, fluted bananas, and cut pineapple. Use marshmallow cherry syrup for its filling.

When dinners are heavy, use one of the thinner soups and serve small portions. Cream of spinach soup can be thinned with milk, then served attractively with a generous dollop of butter.

**RECIPE OF THE WEEK**  
Chocolate Banana Lollipops  
(Makes 12 lollipops)  
1 package semi-sweet chocolate morsels  
3 tablespoons hydrogenated shortening  
6 bananas

Melt semi-sweet chocolate morsels and shortening over hot, but not boiling water. Stir occasionally until melted. Cut bananas in half crosswise. Insert lollipop stick into cut end of banana. Dip into melted chocolate. To anchor firmly, allow a small portion of chocolate to adhere to stick. Place on waxed paper in refrigerator until chocolate hardens.

Combination fruit juices make an excellent first course which can be served in the living room. One part of grape juice to two parts of pineapple juice is excellent.

One fresh green pepper rings make an attractive setting for a seafood first course. Shrimp, crabmeat, lobster and halibut or any combination of these with highly seasoned sauce is delicious.

Chilled vegetable juices spiced with lemon and Worcestershire sauce make appetizing first courses. Serve this with small balls of cottage cheese seasoned with catsup, rolled in finely grated raw carrot and place on a toothpick.

## KENNEBEC HAS GOOD AND BAD POINTS

Extension crops specialist, Oscar L. Wyman, of the University of Maine, says that the new and popular variety of potato called the Kennebec has a bad point or two as well as its many good points. Among the good points are that it is not affected by late blight, it is a heavy yielder, and it has good eating quality. Poor point is, however, that the tubers have a tendency to grow larger than the market likes. Remedy for this, says Wyman, is to plant the hills closer together in the row and to use smaller amounts of fertilizer than for most other varieties.

### CANDIDATE HUSSEY URGES MORE VOCATIONAL TRAINING

More vocational training courses in Maine schools were urged this week by Leroy F. Hussey of Augusta, chairman of the Executive Council and candidate for the Republican nomination for Governor.

In talks before Republican women's groups in Kennebunk and Bangor, Hussey promised that he would urge the State of Education to draw up modern plans for a program to prepare youngsters for specialized jobs.

He noted that the vast majority of our young people never have a chance to go to college or university, but must find jobs as soon as they finish high school, or sooner. Our educational system is not doing a complete job for these youngsters unless it does all it can to prepare them for careers in industry, or business, Hussey contended.

He urged more opportunities for young girls to train for secretarial work, nursing, technical skills and similar occupations. "Young men should have more opportunity to train for jobs in business, trade, industry, science and similar fields," he suggested.

New-type industries coming into Maine, such as in electronics and machine sub-assemblies will need young people with such training and may find the State more attractive for this reason, Hussey declared.
